

Filters  **source.com**^{Inc.}
A Trumpler-Clancy brand

Filtration for any application!

Serving our customers' filtration needs for over 50 years.

Filters from a name you can trust...

Filtersource can provide you with solutions at very competitive prices for all of your industrial filtration needs. We have a full line of filters for HVAC such as pleated filters, pocket bag filters, throwaways, roll media and HEPA filters. We also supply filters for air compressors, gas turbines and dust collectors.

- Airguard
- Baldwin
- Cuno
- Donaldson
- Eaton Filtration
- Filterite
- FSI
- GE Osmonics
- Graver Technologies
- Harmsco
- Hayward
- Hilco/Hilliard
- Hycon
- Hydac
- Hy-Pro
- Ingersoll Rand
- Jonell
- Keystone Filters
- Meissner
- Millipore
- MP Filtri
- Pall Corporation
- Parker
- Peco/Purolator
- Rosedale
- Schroeder
- UF Strainrite

Oil Filters

- Gas Filtration
- Hydraulic Elements
- Hilco Oil Filter Elements
- Portable Filtration Systems
- Duplex/Simplex Filter Housings
- Oil Reclamation Systems
- Vent Mist Eliminators
- Coolant Filtration

Air Filters

Air Compressor Filters

For flows from 15 to 20,000 scfm. Rid your compressed air system of problem-causing oil aerosols, dirt and pipe scale with our housing and element assemblies.

HEPA Filters

High efficiency particulate air (HEPA) filters designed to remove particles larger than 0.3um with an efficiency of 99.99%. Used in pharmaceutical, bio-tech, bio-electronics, aerospace, hospitals and more.

Dust Collector Filters

We supply custom and standard sized dust collector bags to retrofit almost any OEM dust collector bag. Shaker and reverse air bags, pleated cartridges and much more.

Gas Turbine Air Filters

Cartridge or panel style filters with protura nano bers keep your turbine systems operating at peak efficiency in the harshest environments.

HVAC Filters

Pleated filters, throwaways, fiberglass pads, roll media, paint arrester pads, synthetic pads and liners, as well as HEPA filters.

Air Intake Filters

Elements include: Pleated Sewn End Filter elements, Molded End Elements, Coalescing Filters, Air/Gas Filters. Filter Housings: Silenced Air Intakes and In-line Air & Gas housings.

Liquid Filters

Carbon Filters

Carbon Filter cartridges used to improve taste while reducing odor/chlorine and certain VOC's. Ideal for food and beverage applications.

Melt-Blown Filters

FDA grade polypropylene and nylon melt-blown depth filters. Available in both absolute and nominal efficiency ratings from 0.5 to 75 microns.

Membrane Filter Cartridges

Absolute rated membrane filters available in a wide variety of medias such as: poly-ethersulfone (PES), asymmetric polysulfone (PS), nylon and teflon.

Pleated Filter Cartridges

Available in polypropylene, polyester, glass and halar. A wide selection of micron sizes and end cap configurations to choose from.

Resin Bonded Filter Cartridges

Excellent for high viscous fluids or high temperature applications. Available from 5 to 100 microns and 9.75" to 40" lengths.

String Wound Depth Cartridges

String wound filter tubes with micron ratings of 0.5 - 200 microns in 4 - 72" lengths. Polypropylene, cotton, glass, rayon and teflon medias to choose from as well as metal or plastic cores.

Liquid Filters

Filtersource provides customers with the very latest in filtration technology at competitive prices. We have an extensive list of products for filtering almost any liquid application you may have. Whether your need is for high purity filtration or if you need to remove gross contaminants from a coolant or cooling tower water application, we can provide economical options for you to choose from.

Metal Filters

Available in sintered and pleated design. Great for aggressive or high temperature applications. Designed to be back-washed and cleaned for continued reuse.

Bag Filter Housings

Available in carbon steel, aluminum, 304/316SS, Hasteloy-C, PVC and polypropylene. Multi-round, single cavity vessels, duplex and manifold systems as well.

Bag Filter Media

Standard and custom sized bags available in felt polyester, polypropylene, nomex and teflon. Nylon mesh bags in NMO and NMU material as well.

Cartridges Filter Housings

Available in carbon steel, 304/316SS, PVC, polypropylene, teflon and Hasteloy-C. Single and multi-round housings as well as duplex configurations are available.

Eaton/ Hayward Strainers

Simplex & duplex basket strainers available in cast iron, bronze, carbon steel, stainless steel and PVC/CPVC. Automatic self cleaning and fabricated models available.

RO Membranes

GE Osmonic RO membranes for municipal, industrial or pharmaceutical type applications. We can also supply interchanges for duratherm, hydranautics or Im-tec.
